

IBM T43 Thinkpad Notebooks (Type 2668-6BU)
\$270-\$345

System components are tested, operating system installed, and system burnt-in for one or more days.
We charge \$15 to reinstall the operating system should your machine be infected with malware.
We have supplies of used parts from 'organ donor' machines if your machine needs them later.
We charge a nominal labor rate of \$30/hour for working on machines we sell.
We will (within reason) provide help and advice in setting up your computer, peripherals, and network connection.
We will install Linux upon request.
